Full working permit in Australia (subclass 100/309)

I am highly motivated and passionate about Machine Learning with a strong background in computer science and mathematics. My experience in various industries has given me a unique perspective and ability to think outside the box. I am also a lifelong learner, always seeking to expand my knowledge and skills. I strive to deliver business success through data-driven decision-making.

SKILLS

- Technical Skills

Machine Learning | Data Visualization | Deep Learning | Cloud Architecture | Cloud Computing | AWS Cloud Services | Data Analysis | SQL | Python

- Soft Skills

Problem Solving | Project Management | Leadership | Teamwork | Communication

EXPERIENCE

Alibaba Group, Daraz, Dhaka - *Senior Artificial Intelligence Trainer*

NOVEMBER 2022 - DECEMBER 2022

- Led a small team of Artificial Intelligence Trainers to enhance the Alibaba AI chatbot, within the Customer and Seller Support Department. Achieved in improving the response of the chatbot due to the overall team effort.
- Closely monitored the customer queries coming into the Chatbot and set up goals for analyzing their resolutions. Optimized the resolution rate by editing and updating the chatbot responses through a Content Management System (CMS)
- Achieved and maintained a resolution rate of over 80% for the chatbot, decreasing the need for additional call center agents. As a result, received the employee of the month.

Alibaba Group, Daraz, Dhaka - Artificial Intelligence Trainer

APRIL 2022 - OCTOBER 2022

- Implemented new concepts such as Data Analysis automation to the Chatbot data and utilized the results of automation to enhance Chatbot performance.
- Handled the then-recently launched Local Language Chatbot for Daraz Bangladesh and worked to improve its performance.

PROJECTS

- Hosted a website on AWS using Amazon S3, Route 53, API Gateway, AWS SAM → [Cloud Resume Challenge](#)
- Hosted a static website on github showcasing a Natural Language Processing application → [Image Math](#)
- Created a user signup/login user interface and backend using AWS Amplify, React, Typescript → [Login/Signup](#)
- Created an interactive Tableau dashboard → [Tableau Dashboard](#)
- Using explainable artificial intelligence (XAI), projected crop yield on simulated data → [XAI](#)

ACHIEVEMENTS & CERTIFICATES

AWS Certified Solutions Architect

2023

Awarded to those who have a comprehensive understanding of AWS services and technologies.

AWS Certified Cloud Practitioner

2023

Awarded to those who have a fundamental understanding of AWS services and technologies.

EDUCATION

Brac University — Master of Science

JUNE 2021 - PRESENT

Major: Computer Science

Brac University — Bachelor of Science

JANUARY 2016 - 2020

Major: Computer Science
