Thesis : Human Mobility Prediction Challenge

Relevant Coursework: Multivariate Analysis, Database Systems, Marketing Analytics

Sydney, NSW

August 2026

Brac University

Study abroad coursework in Computer Science

Dhaka, Bangladesh

January 2016 – December 2019

Experience

Alibaba Group

Senior Artificial Intelligence Trainer

Dhaka, Bangladesh

April 2022 – December 2022

- Led a small team of Artificial Intelligence Trainers to enhance the Alibaba AI chatbot, within the Customer and Seller Support Department. Achieved in improving response of chatbot due to overall team effort
- Identified customer queries coming into chatbot and set up goals for analyzing resolutions.
- Coordinated with developers to revise responses; increased consumer support efficiency by 85%, automating query resolution through thorough inspection
- Conducted market research and data analysis to identify emerging trends and customer needs, identifying and prioritizing major campaigns to contribute to a projected 20% increase of department efficiency
- Managed and supervised call quality for call center; ensured 85% agent utilization and 80% calls resolved on first contact leveraging optimized chatbot responses; promoted in less than 2 years resolution
- Implemented new concepts such as Data Analysis automation to chatbot data and utilized results of automation to enhance Chatbot performance
- Handled then-recently launched Local Language Chatbot for Daraz Bangladesh and worked to improve its performance

Projects

- **Cloud Resume Challenge:** Hosted a website on AWS using Amazon S3, Route 53, API Gateway, AWS SAM.
- **Image Math:** A static website hosted on GitHub showcasing Natural Language Processing application.
- **UNSW Sustainability Report:** Leveraged Power BI to create a comprehensive data visualization tool for UNSW's 2025 sustainability report, increasing data-driven decision-making
- **AI Economic Impact Dashboard:** Engineered an interactive Tableau dashboard to facilitate cross-country analysis of AI's economic and social impact.
- **House Price Analysis:** Applied statistical techniques including regression, and cluster analysis to recognize patterns in house price fluctuations across 10 years in New South Wales; analyzed predictive models to hedge against house price increase

Achievements and Certifications

- **AWS Certified Solutions Architect [2023]** : Proven expertise in designing scalable, cost-effective, and secure cloud solutions on Amazon Web Services
- **AWS Certified Cloud Practitioner [2023]** : A solid foundation in cloud concepts and core AWS services, pricing models

Skills & Interests

Technical: Data Visualization | Data Analysis | Excel | SQL | Python | R | Power BI | Tableau | AWS Cloud Services

Language: English and Bengali – Professional proficiency , Hindi and Urdu – Limited working proficiency, Arabic and Japanese – Elementary proficiency

Interests: Avid reader of fiction and non-fiction, casual chess player, enjoy bouldering
